

Sickle

Treatment, [July 19,2022]
Lionell Hardy

Logline

A diligent research scientist on the brink of an antidote for the disease that killed his mother must outfox relentless humanoid alien saboteurs in order to eradicate the sickness on Earth.

Characters

Dr. Daestrum Cole - A brilliant scientist that dedicated his life to finding a cure for sickle cell anemia. His mother's death from the illness has motivated him as Unovan agent continue to try and stop his from completing his goal

Dr. Stephanie Cole - Wife of Dr. Cole and secret informer to the Unovan counsel leader

Frankie Cole - Daughter of Daestrum and Stephanie

Marshall Cole - Son of Daestrum and Stephanie

Synopsis

Daestrum Cole works tirelessly in his laboratory. As he works, he remembers the promise he made to his mother as she lay in her hospital bed. His work is about to pay off as he shows proof that he is ready to begin trials for the cure he created.

Dr. Cole gets approval to begin trials and starts to synthesis the cure to begin the trials. The automated systems come under attack and are destroyed along with the completed packaged supply of the cure.

After a series of other destroyed labs, a revelation brings Dr's Daestrum Cole and Stephanie Cole together to stop the Unovan Agents from succeeding in order to save both of Unova and Earth.
